

REFERENCE DAMS OVERSEAS

The following females were purchased at auction in the USA. They are Elite Females. After careful mating selection, we import their embryos. Calves, pregnancies and embryos sell. Stud Breeders will hopefully recognise many of these, as genetics of the future.

As they are not yet Breedplan proven, we suggest you look at the calves and their pedigrees! As is often the case with Elite new imports, the figures follow, it just takes time. We think these embryos offer a big headstart!
